WORK EXPERIENCE

Software Developer, Clidio Technologies – Pune, Maharashtra   February 2021 - July 2021
- Led a team of 2 developers and created Frontend for a video conferencing application
- Converted mockups to code by leveraging ReactJS, Tailwind CSS, AWS Chime and other web tools
- Worked closely with Design, Product, Backend and QA teams to Unit Test the features before deployment
- Proposed and implemented a solution to reduce the original 4 steps process to 3 steps

Freelance Web Developer and Designer, Self Employed – Pune, Maharashtra   June 2019 - July 2021
- Shipped 4 professional paid projects using JavaScript, React, Gatsby, Bootstrap, Typescript and Shopify by following the principles of Design Thinking and Agile Development
- Increased a client's business by about 50% after consulting and redesigning of one of the projects
- Designed and constructed projects right from planning mockups in Figma to delivering well documented products
- Managed an Instagram page @tech.sapien with 27,000 followers to share my web development journey

Software Engineer Intern, Paveway Automation Pvt. Ltd – Pune, Maharashtra   June 2019 - January 2020
- Collaborated with a team of 3 developers to establish a Frontend web application utilizing JavaScript for a transport company
- Constructed a dashboard leveraging React, Styled Components, and Tailwind CSS
- Participated in code reviews with the team during sprints
- Utilized Git workflows for version controlling and Jira for collaboration with team

SKILLS

- Languages: JavaScript, Python, Typescript, Node.js, CSS3, HTML5
